Bigger isn't always better!

AND WHERE WORKING WITH A LOCAL FIRM HAS
IT'S ADVANTAGES

Clearly, as a search provider, it's not just about the searches anymore!

IT solutions that speed up transactions and make them more profitable are now key and that's why the market is now awash with IT providers who also sell searches.

OFFICE ADMIN

The panel, case management and national search companies forget about something that is at the heart of a great search company, and that's good old fashioned Customer Service!

And that is something we know we excel at!

We provide customer service with experienced staff, not a call centre!

We aim to deal with potential problems or queries before the search comes back to you. However, if you do have a query, it will be dealt with by an experienced member of our team and, if necessary we will contact the council or search provider for you.

Don't just take our word for it, check out the testimonials on our website, such as "I would like to thank you for the excellent service you provide. I have always been impressed by your turnaround times and the efficient way you and your team deal with queries" Please visit www.propertysearchnortheast.com/client-testimonials
